

Armadillo Wear

UK scooter clothing manufacturer Armadillo Wear now distributes its wares in the USA through Martin Racing Performance (MRP). Armadillo Wear's range features classic scooterist-style parkas, anoraks and trenches that contain impact protection through d3o™ padding. According to the manufacturer, "Under slow rates of movement, the d3o™ CE certified (EN1621-1) pads provides maximum comfort through softness and flexibility, but when impacted at high speeds d3o™ displays excellent shock absorption as the Intelligent Molecules inside lock together, spreading the force over the whole pad."

While MRP sells to dealers, not the general public, the company will handle all warranty claims. Customers must have original receipt, and claim must be within the two-year warranty period. Dealers can contact 305-599-8993 ext 207 or visit www.MRP-SPEED.com for more information.

PM Tuning Looking for New Distributor

This spring, PM Tuning's distribution agreement with CMSI expires and we hear that they are looking for a new US distributor. The company is known for their line of performance kits and tuning parts. Think you've got what it takes to handle a hot line like PM Tuning? **Send your inquiry to sales@pmtuning.co.uk.**
