MUZZYS

Bring out the looks and power potential of the Hayabusa and ZX-12R with a brand new Muzzy E-Series Exhaust System. By keeping things simple with one canister option and high-volume materials purchasing, Muzzys has created an affordable, full stainless steel exhaust system for these great bikes. Hand-crafted and built to the same standards as its other exhaust lines, the E-series increases power and torque throughout while producing the incredible exhaust note that Muzzys systems are known for.
